To Whom it May Concern:

June 2, 2006

I prefer your website, YellowPageCity.com to the telephone book. More and more people are looking up the information that they want on the computer and after they find my company on your website, they can then click onto my website. I also like the fact that if there is an error on the web site, it can be changed at any time, instead of waiting a whole year for a correction to be made in the telephone book.

Sincerely,

A handwritten signature in black ink, appearing to read "Kurt W. Lester".

Kurt W. Lester
President
