American Standard JADO PORCHER

Dear YellowPageCity.com,

Thank you, thank you thank you!

We started advertising with you in December of 2005 and our ad has already paid for itself. Bill Waite did a wonderful job working with our advertising agency and me. He helped execute the development of our web sight that captures the feel of our showroom beautifully. He also worked out an advertising package that allowed us the opportunity to be listed under multiple headings yet stayed within our budget.

Feedback from our customers has been very positive. Thank you again.

Sincerely,

Jacqui Zacek
General Manager
